We also received prices for the following, but not enough to report: watermelon, dried beans, snap peas, pumpkins, rhubarb, buttercup squash, turnips and chives. Also artichokes, seedless cukes and fennel.

We did not report a price if only one was received. No average is reported when there are only two prices reported for the same crop and the same units. Some units, such as "bunch" are variable, making the price range larger than would be for a more standardized unit. Organic prices are for goods defined as organic by the producer and are not limited to certified organic produce.

This week we received 10 reports. If you have questions regarding this report, please contact Reenie De Geus at (802) 828-3832. This report available on our website at <http://www.state.vt.us/agric>.
