We also received prices for the following, but not enough to report: apples, blackberries, black raspberries, watermelon, dried beans, cantaloupe, hot peppers and oregano.

We did not report a price if only one was received. No average is reported when there are only two prices reported for the same crop and the same units. Some units, such "bunch" are variable, making the price range larger than it would be for a more standardized unit. Organic prices are for goods defined as organic by the producer and are not limited to certified organic foods.

This week we received 20 reports. If you have questions, contact Reenie at 802/828-3832 or reenie.degeus@state.vt.us
